Factsheet

OVERVIEW

Findspace is a website designed specifically to make it easier to find Commercial Real Estate.

The goal for Findspace is to have all Commercial Real Estate viewable on our site. We hope to achieve this by keeping our site totally open and independent. Private Sellers, Property Companies and Real Estate Agencies are all treated the same.

Our site is 100% focused on Commercial Real Estate. You will not find any houses, cars or household items. You will also find the **SpaceFinder** search tool gives you the ability to build a search string to exactly match what you are after, it really is that good.

There are a number of Listing Plans (some being FREE) so there is no logical reason not to list on Findspace, and we have so many search options available we have had to write a separate guide to cover them all. The plans are:

- **Keep it Simple** – Our base and Free Plan (to the end of 2010)
- **Add More Value** – If you wish to add extra detail to your listing and raise its priority to appear at the top of lists
- **Get me Out There** – If you want maximum exposure and wish to have your listing appear on the home page and on top of every list
- **Tickle Me** – To list properties that are *Not for Sale*, so you can gauge interest without displaying any information that could identify the property. FREE to use.
- **Data Feed** – Used exclusively when we are importing data through our API (Agency Property Interface)

E-mail Prompts

A question we were recently asked is can Findspace provide an e-mail prompt whenever a new listing that matches your needs is added. The simple answer is Yes, and in fact we have three different methods.

1. At the bottom of any listing there is the option to **E-mail me Similar**. This will e-mail you once a day any new listings that are similar to the one you are viewing.

2. Using the *SpaceFinder* search tool you can create and save very detailed searches (far more detailed than any other website will let you). These are saved under Your Favourites (you can have as many different searches as you like) and you will be e-mailed whenever something new matches your search.

FAVOURITES

Favourite Searches

We will email you any new listings that match your favourite searches.
